

## **Office of Research & Sponsored Programs**

### **Responsibilities and Qualifications of Principal Investigators**

**Purpose:**

The Office of Research & Sponsored Programs (ORSP) manages proj

of interest for themselves or any individual involved with the project that falls within the University Conflict of Interest Policy.

- Reporting – The PI is responsible for completing all close out and intellectual property requirements of the University and the sponsor; including but not limited to all interim and final satisfying issuance of invention disclosure subcommittee/consortium contractual requirements and other reports as required.
- In instances where the CSULB Research Foundation is the prime recipient of a multi-institutional sponsored program, the PI shall bear the responsibility for ensuring compliance of all sub-recipients as described above.
